

Jim Schaefer Toy Project 2011

Page 1 of 4

This year the Club collected more than 1200 items for the Jim Schaefer Toy Project and completed a total of 20 beds. All of the toy makers and bed makers are to be commended for their continued efforts. Additionally, several members created other crafts, such as handmade blankets and donated clothing, bedding, dolls, stuffed toys, school supplies and other items.

A special thanks goes to the team that registered all the toys at the November meeting and the team that loaded the truck on Tuesday morning. Dusty Eling and Howard Renner were all packed ready to go by 8:20. WOW!!!!!!

A "big" thanks to Dusty and Howard for driving the toys to Mt. Vernon, and to Brad Brockhoff of **Penske Truck Rental** for letting us use the truck for the cost of gas. (Thank you Dusty for making this happen.)

Importantly, we want to express our appreciation to the Northminster Presbyterian Church for allowing us to store our items over the weekend until we were able to load them on the truck. (Thank you Homer for making this happen.)

Because of your efforts, hundreds of children will have a Merrier Christmas. And at least 20 people will have a nice bed to sleep in.

It's not too early to start on next year's toys. We have lots of toy making supplies on hand and funds available to purchase more. Please let us know if there are specific items you need.

May God bless you all.
